## PROFESSIONAL EXPERIENCE

**Codegnan IT Solutions, Full Stack Intern** June 2023– Aug 2023

- Designed, developed, and implemented a Notes Web Application using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Collaborated with cross-functional teams to gather requirements, define project scopes, and deliver high-quality software solutions.

## ACADEMIC PROJECTS

**Hostel-Hunt - [GitHub Link](#)** Sep 2023– Dec 2023  
Built a website to find hostels and their details in an area (MERN stack).

- Conceptualized, designed, and developed an innovative website addressing the pressing challenges faced by students and working professionals when searching for accommodations in unfamiliar areas.
- Engineered a seamless process for hostel creation, allowing hostel owners to effortlessly register and showcase their accommodations, while simultaneously providing users with an extensive database to explore.

**Career Counselling - [GitHub Link](#)** June 2023- Aug 2023  
Led team of two to design and develop a website to ask and clear queries of students related to career.

- Designed and developed a dynamic Career Counselling Website aimed at fostering a collaborative platform for students to seek guidance on career-related queries.
- Incorporated a blogging platform within the website to provide motivational and informative content, encouraging and guiding students through various aspects of their career journey.

## CERTIFICATIONS & ACHIEVEMENTS

- Java Foundation Certification - Infosys Springboard
- The Joy of Computing using Python - NPTEL
- MERN stack intern Codegnan
- Solved 350+ DSA problems on leetcode
- Tutored 10th-grade students in Aksharamala; active NSS club member.
